Summary

Proactive data analyst passionate about turning data into actionable insights. Skilled in SQL, Python, ETL, and data visualization. Experienced in frontend development, blending analytical thinking with intuitive design to create user-friendly interfaces.

Experience

Team Lead - Data Analyst

Allied Global

Barranquilla, Colombia

Sept 2024 – present

Assignment of contract between Quantica BPO and Allied Global. Continued with the same responsibilities as in Quantica BPO

Team Lead - Data Analyst

Quantica BPO

Barranquilla, Colombia

Mar 2024 – Sept 2024

- Spearhead daily data analysis using Python (Pandas, NumPy, Matplotlib) and SQL (PostgreSQL, Oracle) to investigate anomalies and drive data-informed business decisions.
- Architect interactive, multi-source dashboards in Looker Studio, automating KPI reporting to empower stakeholders with real-time insights and trend analysis.
- Lead cross-functional team initiatives utilizing Scrum and Asana, streamlining workflows to enhance efficiency and ensure timely delivery of projects.
- Engineer and automate robust ETL data pipelines, transforming raw data into actionable insights while managing end-to-end data flows.
- Translate business requirements into technical JIRA stories and maintain comprehensive documentation to drive continuous process improvements.

Web Developer

Freelancer

May 2024 – Aug 2024

- Designed and developed a dynamic webpage for Mallas Atlanta using React and TypeScript.
- Implemented responsive UI using Mantine and custom CSS to enhance user experience.

Data Analyst Jr

Quantica BPO

Sept 2023 – Feb 2024

- Monitored performance metrics and evaluated alerts to proactively mitigate operational risks and business impacts.
- Conducted fraud management analysis for a major U.S. telecommunications client using Python, PostgreSQL, Power BI, and Excel to drive strategic decision-making.
- Led root-cause data investigations to trace database anomalies, enabling prompt issue resolution.
- Generated comprehensive analytical reports to support operational improvements and data-driven business strategy.
- Managed issue tracking and resolution workflows via JIRA, ensuring efficient cross-functional collaboration.

Technical Support & Customer Service Representative

Aug 2022 – Aug 2023

Quantica BPO

- Provided multi-tiered technical support, resolving complex connectivity and service-related issues across multiple platforms.
- Diagnosed and troubleshooted software/system problems to ensure high client satisfaction and efficient service delivery.
- Collaborated with cross-functional teams to escalate advanced technical issues, contributing to process improvements and enhanced retention.
- Managed client accounts while providing technical support, ensuring strong relationships and tailored service solutions.
